

Seasonal NARTE Headquarters—Inside/Outside

The activity around NARTE Headquarters continued at its normal hectic pace through the Spring and into Summer, with a combination of meetings, travel and day-to-day actions keeping staff, officer and board members busy with member support activities. The flowers were budding and blooming in front of the refreshed headquarters building, with the new roof, paint and interior polish keeping it crisp and ready for action. The May NARTE Board meeting was held here, as well as the annual NARTE Japanese EMC certification meeting, which was held in the US this year, (See “Headquarters Highlights” on pages 3-5 for the detail of recent NARTE activities.)
